

GRADUATION REQUIREMENTS

Requirements for Graduation

Students must complete all requirements for the respective degree as outlined by the academic department and the Graduate School before graduation. An application for graduation must be submitted before the University deadline. Students should consult the University calendar for the deadline dates for each semester.

Advisors and Degree Plan

At the time of matriculation, the student will be assigned to a program advisor, who will have general supervision of the student's graduate work. The advisor will assist the student in filling out the Degree Plan, an approved copy of which must be filed in the Graduate Office by the end of the student's first semester of matriculation at Texas Southern University. When a student enrolls for courses, his or her program must have the written approval of the advisor. The chairman of the department serves as the general advisor for students in the department and should be consulted prior to the submission of the degree plan to the Graduate School.

Students who take courses without the approval of their advisors do so at their own risk and may not be permitted to include them in their degree or professional certificate plans.

Residency Requirement

A residence of at least one academic year or its equivalent is required.

Admission to Degree Candidacy

Admission to study in the Graduate School does not imply acceptance as a candidate for a degree. To become a candidate for the graduate degree or for a professional certificate, the student must have satisfactorily completed all admission requirements and have an approved degree plan. He or she must also have satisfied the English Proficiency requirement; demonstrated proficiency in a foreign language, if required; passed the qualifying examination, if required; completed at least twelve (12) semester hours of graduate work, and be recommended to candidacy by the advisor and head of the department.

Approved courses are entered on the student's record in the Registrar's Office. Credits transferred from approved extension schools and/or from another institution may not exceed six semester hours and must be graduate credits and have a grade of "B" (3.00) or better. Approved courses must not exceed the six-(6) year time limit when the student applies for graduation.

Transfer work from other institutions will not be used in computing the quality point average for graduation or certification.

No course counted toward another degree may be counted toward a master's degree, either directly or by substitution.

Work done for the master's degree may be included in the work for the doctoral degree, provided it is acceptable to the Department, the supervising committee, and the Graduate School and providing it has not already been used towards another doctoral degree. Up to 24 hours

of work towards a master's degree can be used to satisfy requirements towards a doctoral degree. Programs will submit a degree plan for each doctoral student indicating which specific courses on the student's transcript will replace which specific courses in the program's curriculum. Generally, master's thesis courses, internship courses, and practicum courses may not be counted as fulfilling doctoral requirements.

Workshop Credit

No more than six semester hours of approved graduate workshop credit may count toward the semester hours required for a degree or professional certificate.
