

DEPARTMENT OF SOCIOLOGY

The **Department of Sociology** at Texas Southern University offers the Master of Arts degree with an emphasis on urban/applied sociology. Consistent with the University's focus on "urban programming" the Master of Arts Degree in Sociology emphasizes research into the complex social problems experienced by diverse urban populations, public responses to these problems in America and elsewhere, and the practical application of data in ameliorating or improving the condition of urban populations. Although students are trained with an emphasis on sociological theory and methods, this program intensely addresses substantive topics such as social stratification in education, employment and health as well as poverty, discrimination, and the role of media in these conversations. In addition to coursework in urban/applied, optional coursework is offered which emphasizes the training of students who will apply their sociological skills in nonacademic professions on the local, state, and national levels. Ultimately, the Master of Arts Degree in Sociology at Texas Southern University emphasizes research in urban environments which produce data to be used in understanding and addressing the living condition of varied urban populations. Toward that end, this program seeks to accomplish the following objectives:

1. Prepare graduates for successful transition into doctoral programs.
2. Prepare graduates for careers in applied sociology professions.
3. Provide graduates with the requisite skills for conducting sociological research in urban areas.
