

COLLEGE OF TRANSDISCIPLINARY STUDIES

About the College of Transdisciplinary Studies

Texas Southern University envisions the advancement and attainment of goals for this sector of students by responding to the national and statewide data to re-enroll students from the 36 million current SCND population, reaching out with tailored programs and policies to meet their needs.

Texas Southern University caters to non-traditional undergraduate and graduate students who have excellent potential to complete a degree but need flexibility, opportunity, and accessibility to various completion options.

The TSU College of Transdisciplinary Studies programs affords students the opportunity to pursue transdisciplinary studies by selecting from a variety of degree programs that target vital local, national, and global workforce opportunities.

Bachelor's Degree PROGRAMS

The undergraduate degree programs offered through the College of Transdisciplinary Studies are for students who are interested in creating an individualized academic program with a strong education foundation, and with applied, experiential training that integrates valued workplace standards, experience, and past academic work. They are designed for students whose academic interests are broad and transdisciplinary and whose career interests require diverse and transdisciplinary exposure.

The degree programs in the College of Transdisciplinary Studies are non-traditional, giving students and their academic advisor the opportunity to create their path. Based on students' earned undergraduate credit hours, work experiences, and current interests, students work with an academic advisor to develop a degree plan that fits their career goals.
